

The Collider 2019-2020

# SCIENCE WON'T BE FICTION ANYMORE

Connecting scientific and entrepreneurial talent

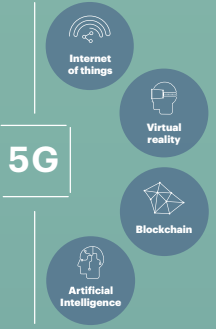

#BeyondData

The COLLIDER

A programme of  
MOBILE WORLD CAPITAL BARCELONA

**The Collider**, an innovation programme promoted by **Mobile World Capital Barcelona**, connects scientific and entrepreneurial talent to create disruptive technology-based startups that address society's and industry's challenges.

The programme is designed for PhDs, Postdocs, Master's students or researchers who are involved into university research group or research centre and want to make a positive impact on society with their research.

## WHAT ARE WE LOOKING FOR?

### Scientists:

- Proven experience in IoT, Blockchain, AI or VR
- Passion for entrepreneurship
- Support of a research group leader to join The Collider

### Technology:

- Maturity level of TRL 3-6
- Patented or in process of protection
- Not yet commercialised not transferred

## WHY JOIN?

### Industry Pilots

Technologies that offer solutions on how to overcome current edition's challenges will be able to validate their MVP with corporations and have an opportunity to launch joint pilots together.

### Programme

Numerous mentors, entrepreneurship gurus and industry experts are involved into the programme and will help you with advice or a meaningful connection with other players inside the ecosystem.

### Talent

The Collider looks for serial entrepreneurs with remarkable business skills that together with scientists will form high-performance entrepreneurial teams.

### MWCapital Network

Get access to MWCapital community of privileged business development environment to maximise your business opportunities, including participation in the such events as MWC 2020, 4YFN and other events.
